Applicant's Representations

1. Applicant is an open-end management investment company organized as a New York corporation. On December 21, 1993, applicant registered under the Act and filed a registration statement under the Securities Act of 1933 to register its shares. The registration statement became effective on June 13, 1994, and the initial public offering commenced on June 16, 1994.

2. On February 6, 1995, the Acting Superintendent for the Banks of the State of New York took possession of Nationar, applicant's investment adviser, a commercial bank organized under the laws of the State of New York. During a telephonic board meeting held on February 13, 1995, applicant's board of directors considered what was the appropriate action to be taken regarding the applicant and its funds. At that time, the board of directors took formal action to close applicant's Money Market Portfolio as all of the shareholders other than Nationar had redeemed their shares. At a subsequent telephonic meeting of applicant's board of directors held on February 17, 1995, the chairman reported that he had been contacted by most, if not all, of the shareholders in each of applicant's other funds and had been advised that all of them were contemplating redeeming their shares. Throughout the period February 6, 1995 through February 17, 1995, officers of Nationar, fund counsel and applicant's accountants had been communicating with the SEC and the New York State Banking Department in order to determine what action should be taken with respect to applicant and its funds. By unanimous written consent dated March 1, 1995, the board of directors adopted resolutions authorizing the officers of the applicant to take all such action as necessary to cease offering shares of applicant's Money Market Portfolio, Government Securities Portfolio, and U.S. Mortgage Securities Portfolio.

3. All assets of applicant have been distributed to shareholders through individual redemptions. Immediately prior to the redemptions, each fund's assets were converted into cash. No brokerage commissions or other fees were paid in connection with the redemptions or the conversion of portfolio securities into cash.

4. All expenses incurred in connection with the liquidation,

approximately \$37,500, consisting of legal fees and trustee fees, were paid by applicant. Certain deferred organizational expenses of \$79,116 were assumed and paid by the Adviser.

5. As of the date of the application, applicant had no debts or liabilities and is not a party to any litigation or administrative proceeding.

6. Applicant is neither engaged in, nor does it propose to engage in, any business activities other than those necessary for the winding-up of its affairs. Applicant intends to file a certificate of dissolution with the State of New York.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

BILLING CODE 4910-62-P

Federal Aviation Administration

Receipt of Revision To Approved Noise Compatibility Program and Request for Review; Reno/Tahoe International Airport, Reno, NV

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice.

SUMMARY: The Federal Aviation Administration (FAA) announces that it is reviewing a proposed revision to the approved noise compatibility program that was submitted for Reno/Tahoe International Airport under the provisions of Title I of the Aviation Safety and Noise Abatement Act of 1979 (Pub. L. 96-193) (hereinafter referred to as "the Act") and 14 CFR Part 150 by the Airport Authority of Washoe County, Nevada. The Noise Compatibility Program was submitted subsequent to a determination by FAA that associated noise exposure maps submitted under 14 CFR Part 150 for Reno/Tahoe International Airport were in compliance with applicable requirements effective February 22, 1991. The Noise Compatibility Program for Reno/Tahoe International Airport was approved by the FAA on September 1, 1993. The proposed revision to the approved noise compatibility program will be approved or disapproved on or before December 10, 1995.

EFFECTIVE DATE: The effective date of the start of FAA's review of the revision to the approved noise compatibility program is June 13, 1995. The public comment period ends July 13, 1995.

FOR FURTHER INFORMATION CONTACT: Mr. Elisha Novak, Senior Planner, SFO-612, Federal Aviation Administration, San Francisco Airports District Office, 831 Mitten Road, Burlingame, California 94010-1303, Telephone 415/876-2928. Comments on the proposed revision to the approved noise compatibility program should be submitted to the above office.

SUPPLEMENTARY INFORMATION: This notice announces that the FAA is reviewing a proposed revision to the approved noise compatibility program for Reno/Tahoe International Airport which will be approved or disapproved on or before December 10, 1995. This notice also announces the availability of

this revision for public review and comment.

An airport operator who has submitted noise exposure maps that are found by FAA to be in compliance with the requirements of Federal Aviation Regulations (FAR) Part 150, promulgated pursuant to Title I of the Act, may submit a noise compatibility program for FAA approval which sets forth the measures the operator has taken or proposes for the reduction of existing noncompatible uses and for the prevention of the introduction of additional noncompatible uses.

The FAA has formally received the revision to the approved noise compatibility program for Reno/Tahoe International Airport, effective June 13, 1995. It was requested that the FAA review this material and that the noise mitigation measures, to be implemented jointly by the airport and surrounding communities, be approved as a noise compatibility program under Section 104(b) of the Act. On September 1, 1993, the FAA approved the noise compatibility program for Reno/Tahoe International Airport. An announcement of FAA's approval of the noise compatibility program was published in the Federal Register on September 24, 1993. Preliminary review of the submitted material for the revision indicates that it conforms to the requirements for the submittal of noise compatibility programs, but that further review will be necessary prior to approval or disapproval of the program. The formal review period, limited by law to a maximum of 180-days, will be completed on or before December 10, 1995.

The FAA's detailed evaluation will be conducted under the provisions of 14 CFR Part 150, Section 150.33. The primary considerations in the evaluation process are whether the proposed measure may reduce the level of aviation safety, create an undue burden on interstate or foreign commerce, or be reasonably consistent with obtaining the goal of reducing existing noncompatible land uses and preventing the introduction of additional noncompatible land uses.

Interested persons are invited to comment on the proposed revision with specific reference to these factors. All comments, other than those properly addressed to local land use authorities, will be considered by the FAA to the extent practicable. Copies of the noise exposure maps, the FAA's evaluation of the maps, and the proposed revision to the approved noise compatibility program are available for examination at the following locations:
